

## POPRAVEK/CORRECTION

V prejšnji številki revije Geodetski vestnik, št. 52-4/08 je na strani 686 pri slovenskem in angleškem povzetku članka avtorice Kari Strande THE NORWEGIAN SPATIAL DATA INFRASTRUCTURE "NORWAY DIGITAL" izpadla zadnja vrstica. Avtorici se za to napako opravičujemo in povzetek objavljamo ponovno.

In the last volume of Geodetski vestnik, No. 52-4/08, page 686, the last line of Slovenian and English abstracts for the paper THE NORWEGIAN SPATIAL DATA INFRASTRUCTURE "NORWAY DIGITAL" by Kari Strande was missed out. We apologise to the author for the mistake. Full texts of the abstracts are published below.

### THE NORWEGIAN SPATIAL DATA INFRASTRUCTURE »NORWAY DIGITAL«

NORVEŠKA PROSTORSKA PODATKOVA INFRASTRUKTURA "NORWAY DIGITAL"

#### ABSTRACT

Članek opisuje norveško prostorsko podatkovno infrastrukturo »Norway Digital«, ki vključuje nacionalno geodetsko mrežo v povezavi z evropskim in norveškimi administrativnim in pravnim okvirjem. Norway Digital je razvit in izdelan na podlagi potreb uporabnikov, ciljev e-uprave, bele knjige Parlamenta in Direktive INSPIRE. Norway Digital predstavlja široko sodelovanje, ki temelji na osnovnem okvirju, nacionalnih in mednarodnih standardih in na potrebah za distribucijske dejavnosti.

#### POVZETEK

This paper describes the Norwegian Spatial Data Infrastructure "Norway Digital", which is the national geodetic network connected to both European and Norwegian administrative and legal frameworks. Norway Digital was developed and is implemented on the basis of user demands, e-Government objectives, a Parliament White Paper and the INSPIRE Directive. Norway Digital is a broad co-operation based on a core framework, national and international standards and the need for distribution services.
